5th – 7th Jan 2020

Oxford Short Course in Experimental Medicine for Mental Health (OxCEMM)

This short course is run by the NIHR Oxford Health Biomedical Research Centre (BRC), and sponsored by the Wellcome Centre for Integrative Neuroimaging (WIN).

OxCEMM is designed to provide a practical and comprehensive grounding in experimental medicine for mental health for those with a basic understanding.

It is open to clinical and preclinical staff and trainees, medical doctors at any career stage. The course will be of interest to psychiatrists, neurologists, GPs and other specialists, nurses, basic scientists, allied health professionals and pharmacists.

Apply **now**, limited places and bursaries available. Bursaries will cover course costs including accommodation, evening and daytime meals as well as refreshments.

Get in touch with any questions oxcemm@psych.ox.ac.uk

“ .. an intellectually stimulating course filled with inspirational content and pragmatic advice.
