7th Course in
Network Meta-Analysis
20-22 June, 2022

Venue: Department of Psychiatry, University of Oxford

Speakers:

- Andrea Cipriani, Course Director (University of Oxford, UK)
- Orestis Efthimiou (University of Bern, Switzerland)
- Toshi A Furukawa (Kyoto University, Japan)
- Stefan Leucht (Technische Universität München, Germany)
- Huseyin Naci (LSE, UK)
- Georgia Salanti (University of Bern, Switzerland)

NMAs are often complex and challenging projects, this 3-day interactive course will focus on the tools needed to understand, write and critically appraise a network meta-analysis.

A selected group of expert clinicians, researchers and scientists, with a strong track record in the field of NMA, will guide you through the course, bringing you lectures, group work, hands-on tutorials and supervised statistical sessions.

The course is aimed at clinicians, researchers and policy makers in the health care field, but others are welcome.

Course Fees
Standard £1600
Discount £1400
Discount applies to University students

Early Bird Registration
Deadline: 28/02/2022
Standard £1400 / Discount £1200
