Supporting Information

13. **Research Leadership potential**
Please provide evidence of your leadership potential in translational research, citing roles and other relevant information. If you are a clinician, please indicate in percentage terms how your time is divided between clinical and academic activities (e.g. 60% clinical, 40% academic) and whether any of this is funded through NIHR. (maximum 300 words) *

14. **Patient and Public Involvement in Research**
Please provide evidence of how you have integrated patient and public involvement (PPI) into your research and/or how you might propose to in future. Please provide examples of the relevance of your research to patients and the public. Please also describe how you could provide leadership and support capacity development for PPI in research (maximum 300 words) *

15. **Translation into Improvements in Healthcare**
Please report any examples of your research which have: · Contributed to NICE guidelines · Influenced National Service Frameworks · Changed practice or service delivery locally, nationally or internationally. Please give details describing how this led to improvements in the quality of care to patients, and providing references if possible. If your research is not yet at this translational stage please give details of how in the future it might benefit patients and improve the quality of care. Please indicate the steps and timeline required for this to take place. (maximum 300 words). *

16. **Links with Industry**
Please list any commercial companies with whom you are currently collaborating. (maximum 300 words). *

Publications

17. Please enter your top publications ranked from 1-10. These should be publications you consider to be your most important and in which you played a substantial role.
